

Constitutional Convention, 1787

Absences:

- John Adams & Thomas Jefferson were in France
- Thomas Paine was in England
- Samuel Adams and John Hancock were not invited
- Patrick Henry refused to attend

- Benjamin Franklin was 81, the oldest delegate at the Constitutional Convention.

Constitutional

Franklin's body had not stayed as young as his mind. He suffered from gout and from bladder stones. Franklin was carried to and from the Convention everyday in a sedan chair.

C h a n g e i t ?

- Soon after the meeting began, the delegates decided to do more than **revise the Articles of Confederation**.
- They **chose instead to write an entirely new constitution for the nation**.
- They disagreed (of course!) about what form the national government should take.

R e - W r i t e I t ! !

The Virginia Plan

- Edmund Randolph and **James Madison**, both from Virginia, proposed a plan for the new government.
- **The Virginia Plan** called for a strong national government with three branches.

POPULATION

- **Small states HATED the Virginia Plan.**
- They feared that the large states could easily outvote them in Congress.
- Supporters of the Virginia Plan said it was only fair for a state with more people to have more representatives.

The New Jersey Plan

- But another state proposed a different plan.
- Like the Virginia Plan, the **New Jersey Plan** called for 3 branches of government, but it called for only one house.
- **Each state regardless of their population, would have**

Agreement, Disagreement, and Compromise

- No one could agree on what the new government would LOOK like
- **Compromise** – an agreement where each side settles to make each other happy.
- **The Great Compromise**
 - A compromise between the Virginia Plan and New Jersey Plan

Virginia Plan:

- ▶ Two house legislature (bicameral)
- ▶ Representation to Congress based on population
- ▶ Supported by larger states

V.

New Jersey Plan:

- ▶ One house legislature (unicameral)
- ▶ Equal representation in Congress
- ▶ Supported by smaller states who feared losing power in federal the federal government

Here's how Sherman's plan would work in the case of

Pennsylvania (pop. 434,373) and of **Delaware (pop. 59,096):**

By compromising—each side “shaving” some demands in order to reach agreement—the Convention was saved: a valuable lesson!

- A Direct democracy
- B Great Compromise**
- C Checks and balances
- D Missouri Compromise

Agreement, Disagreement, and Compromise

Now came the challenge of **slaves** – how were they to

Three-Fifths Compromise

—A compromise between the Northern and Southern states on how **slaves** should be

counted. Southern delegates wanted slaves to count as people because MORE congressmen would represent their states.

Count slaves as people + More congressmen = the power to influence votes in the South's favor

Before we continue on, let's do a quick overview on slavery:

Southern States.

- ▶ Wanted slaves counted as population to determine representation in the House of Reps.
- ▶ Opposed counting slaves for the purpose of determining taxation

Agreement, Disagreement, and Compromise

Three-Fifths Compromise

—Northern delegates called this “Southern idea”

- UNFAIR
- INCONSISTENT – slaves were always counted as 3/5 of a person
 - Gouverneur Morris voiced a moral protest:

Northern States:

- ▶ Opposed counting slaves as population to determine representation in the House of Reps.
- ▶ Favored counting slaves for the purpose of determining taxation

The Three-Fifths Plan

- Once again the delegates compromised. **They agreed that 3/5 of the slaves in any state would be counted.**
- If a state had 5,000 slaves then 3,000 would be included in the state's population.
- This became known as the **Three-Fifths Compromise.**

THE 3/5th COMPROMISE:

- 3/5th of slaves counted as population in determining representation to the House of Representatives
- 3/5th of slaves would be counted for the purpose of determining taxation

Why didn't the Founding Fathers just abolish slavery from the start?????

Economic Reasons

- **Would end a cheap labor supply:** Slaves worked for free (cheap labor). Ending it would harm the southern and US economy.
- **Less Profit:** Southern plantation owners wouldn't

Social Reasons

- **Racism.** Many of the Founding Fathers were slave owners and had difficulty seeing a society where blacks were equal to whites.
- **The South threatened to leave:** The southern states threatened to leave the union if slavery became abolished
